Avaa Creative Laminates powered by GLO have all the style of Pastel Collection. They combine excellent aesthetic quality with properties and virtues of interest to those who conceive or create interior design solutions, starting from ductility and strength. Ava Creative Laminates are made of material that is both easy to work with and extremely strong: resistant to scratches, impact, abrasion, chemical substances, and heat. These characteristics make it ideal for a wide range of applications. To ensure additional properties Ava Creative Laminates can be, in fact, antibacterial and fireproof, therefore especially suitable for applications in public places or in cases in which a high degree of hygiene is particularly important, from kitchens, to means of transportation, to hospitals.
