WALL PANELS**

PARÉ

Based out of India, **PARÉ** Innovations has been an ardent and inventive front-runner of India's advancing Interior designing industry. With a varied range of both contemporary and classic designs of ArtStone collection of **PARÉ** Panels, we cater to the tastes of modern Indian homes, architects, interior designers and stylists. In addition to our opulent decorative panels, we are now introducing our pre-eminent range of **Soffit** to the Indian market for the very first time. Available in a wide and unrivalled range of wooden shades as well as mono-colour shades, **PARÉ Soffit** is here to meet the demands of India's evolving architectural aesthetic while combing Innovation with functionality.

THE PERFECT PRODUCT FOR YOUR HOME

A modern and tasteful upgrade for any architectural entity, **Soffit** is an innovative constructional feature suited interior walls and ceilings alike. Literally translating to “ceiling” in French, it checkmarks all essential features such as extreme weather resistance, maintenance free and perforation in-between the layers, while portraying some serious minimalist design and aesthetic preferences. Perfectly suited for the Indian climate, **Soffit** permits airflow along the underside of it, thus preventing any occurrence of mould or condensation.

Although it is primarily made of vinyl, The Wooden Collection of **PARÉ Soffit** delivers a definite wooden look along with the precise physical tangibility of real wood. Adding to the aforementioned detail, **PARÉ Innovations** offers one of the widest range of colours available for **Soffit**. Right from deep shades such as Walnut to lighter hues like Maple, there is a suitable woodsy neutral for every architectural colour palette. Read on ahead to experience the full **PARÉ Innovations Soffit** colour spectrum along with detailed notes on features.

AESTHETIC LOOKS

Soffit exceptionally resembles the exact look and feel of actual wooden furnishings. Furthermore, it even possesses the physical tangibility of actual wood. All the aesthetics of wood without any of its downsides.

INTERLOCKING PANELS

The concealed click-lock fastening in **Paré Soffit**, ensures easy and fuss-free installation and removal as well as assists in streamlined and efficient cleaning in between the panels.

REASONABLE CHOICE

Aside from its refined and elegant appearance, it proves to be advantageous, cutting down on the electricity costs.

ANTI-BACTERIAL

Designed with expert supervision, **Paré Soffit** proves to be impervious to biological corrosion. Proven to remove bacteria within 120 seconds once it lands on its surface, **Soffit** takes a strong stance against external invasion with its insect and moss proof capabilities.

MAINTENANCE FREE

One of the primary perks of **Paré Soffit** is that it is entirely maintenance free. Its supreme resistant qualities enable it to endure all weather and environmental conditions.

LONG LIFE

Paré Soffit is specifically designed with the agenda of undergoing a full and long lifespan. This is further supported with its Weather Resistant, Anti-Bacterial and Maintenance-free qualities.

LARGE SIZE

With fairly large panel size (4m x 0.3m), **Paré Soffit** makes for seamless and joint-free presentation.

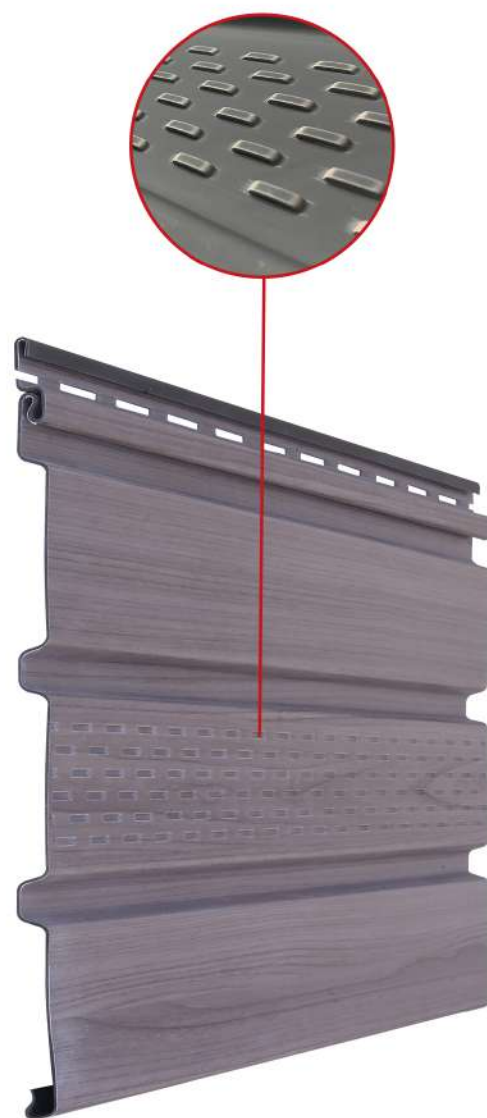

SUPERIOR TECHNOLOGY

Paré Soffit's superior technology entails exclusive formulation and processing that is designed to boost panel durability. This results in the panels to possess extreme resistance to cracking and thermal distortion.

CRUCIAL AIRFLOW

Designed to allow fresh air to flow through your roof, Paré Soffit regards roof-ventilation with supreme priority. A well-ventilated roof is crucial to obtain optimum temperature and avert condensation problems. Without proper ventilation, the roof runs a high risk of developing mold or weakening due to damp insulation, therefore decreasing its life-span.

ENHANCE YOUR BEAUTY

A key attribute of PARE Soffit is that it maximizes airflow with minutely designed ducts. This uniquely superior design is constructed to prohibit any foreign substances or insects from entering the panels while also preserving its aesthetics.

A misty forest path with tall trees and fallen leaves. The path is covered in brown leaves and leads into a dense forest of tall, thin trees. The atmosphere is soft and hazy, with light filtering through the canopy.

**INTRODUCING
WOODEN
COLLECTION**

GOLDEN OAK

A rich, warm-toned medium brown that furnishes the place to look naturally polished and beautiful with its subtle golden tint and pleasant aesthetic.

BIRCH

Birch is another splendid choice for one of the light-wooden shades but with slightly more of a woody tone to it. It is a smooth-grained and versatile wooden shade, perfect as a neutral choice for interiors.

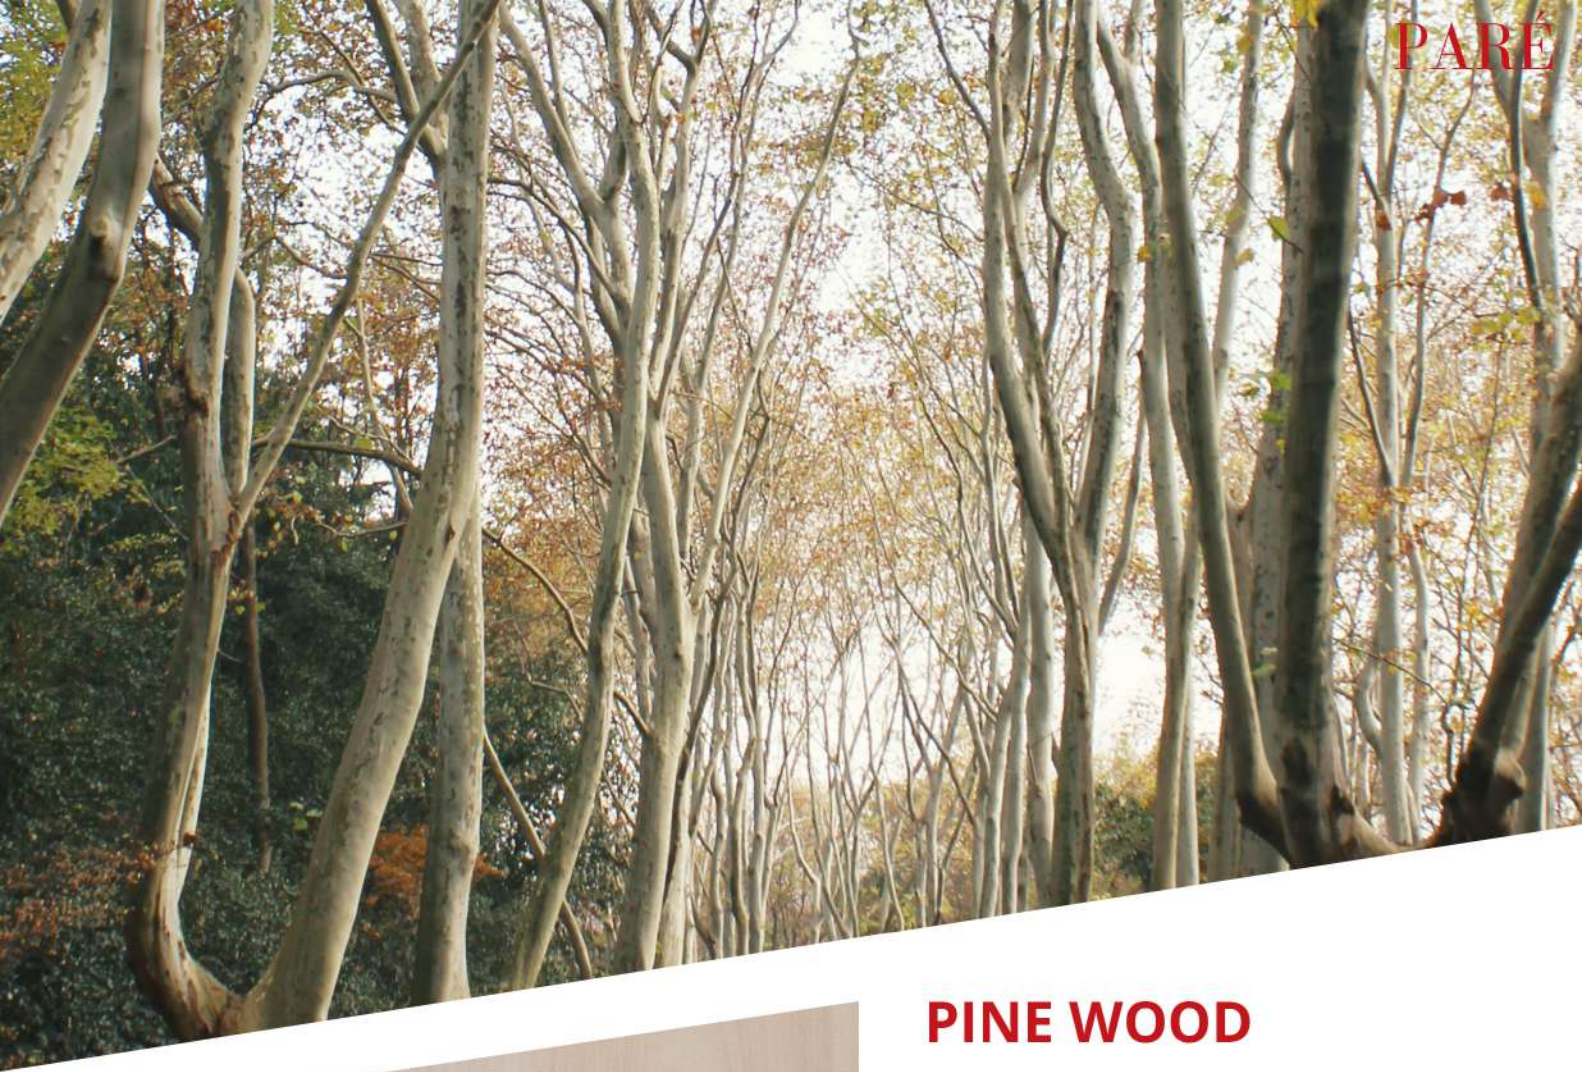

MAPLE WOOD

Maple Wood is a unique and coveting autumnal hue. With its honey-hued elegance and warm tone vibrancy it doubles as both suave and artistic.

PINE WOOD

A sophisticated, smooth and soothing shade of light wood, this broadly falls under the white pine category. Ideal for a both an airy atmosphere as well as a cool-albeit-cozy ambience.

WALNUT

A rich and dark warm-toned wooden hue with dark chocolate undertones, Walnut exudes a singular sort of vintage elegance. Although dense, it is also a surprisingly versatile shade that compliments a range of bright shades.

WEATHERED GREY

A superb cool-toned choice that exudes a slightly more aged hue. The weathered grey comes with neutral, ashy-brown undertones, making it an ideal choice for a soft, slightly dark neutral.

ENERGY EFFICIENT:

PARÉ Soffit is lighter weight per square feet than other alternative options, thus reducing the fuel required to transport and inturn less pollution. When correctly installed, the perforation properties of PARÉ Soffit improves the home's energy efficiency and influence its temperature.

LIFECYCLE BENEFITS:

PARÉ Soffit is durable and requires no additional finishes. Our Soffit stands up to the weather with virtually no maintenance. When installed properly and under normal use, PARÉ Soffit should never require painting or staining. They won't crack, blister or peel.

SUSTAINABLE RESOURCES

During the manufacturing process of PARÉ Soffit, all the unused material is reclaimed and reused, creating one of the most effeciently produced material available today. Thus, when used and installed properly; PARÉ Soffit never requires paint or stain, thus reducing the **VOC** released in the environment
