Turning clay..... into Lifestyle!

CLAYNEERTM

FLEXIBLE WALL CLADDING

GLO[®]
SPICE UP YOUR SURFACES
PANELS & PLANKS

CLAYNEER is an amalgamation of natural clay stones made through a technology breakthrough with the base materials being constituted and bonded together by using only low heat temperature in its state-of-the-art manufacturing process. Clayneer are an ideal cladding material that offer flexible application and design features for both exterior facade and interior décor and can be installed easily on almost any substrate. The natural textures and vivid colours allow architects to create unique features and atmospheres for all kinds of buildings like apartment, school, villa, commercial and office building. Clayneer flexible claddings are almost mineral-based, consisting of a mixture of clay, high-grade polymer and inorganic pigment. An additional reinforced fiberglass mesh is used when manufacturing big format products like Travertine Stone.

IT IS THE PERFECT PRODUCT TO ENHANCE THE BEAUTY OF YOUR CURVED WALLS, ROUND ARCHES, CYLINDERS AND MUCH MORE.

ROCK STONE / TRAVERTINE - INDICATIVE CALCULATION

Wall Dimensions		Clayneer Dimensions		Gap	50 Tiles
Width (feet)	Length (feet)	Width (mm)	Length (mm)	Width (mm)	
10	10	300	600	8	

BRICK - INDICATIVE CALCULATION

Wall Dimensions		Clayneer Dimensions		Gap	551 Tiles
Width (feet)	Length (feet)	Width (mm)	Length (mm)	Width (mm)	
10	10	60	240	8

CLAYNEER™

FLEXIBLE WALL CLADDING

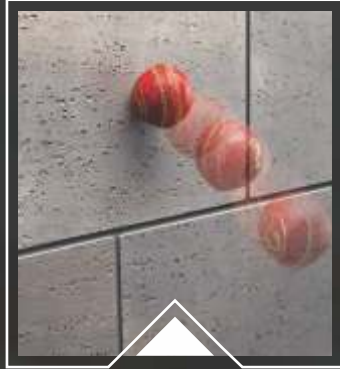

FEATURES

DURABLE

ANTI-FUNGUS & BACTERIA-FREE

HIGH IMPACT RESISTANT

ECO FRIENDLY

FLEXIBLE & BENDABLE

FIRE RETARDANT

WATER RESISTANT

NATURAL SHADES & TEXTURES

FAST & EASY TO INSTALL

2.5/3.5 MM THIN

LIGHT WEIGHT

 **NO NEED TO PAINT**
 **50 YEARS WARRANTY**

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist. The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2331 (Rock Stone), Dimensions: 300mm x 600mm x 3.5mm

2332 (Rock Stone), Dimensions: 300mm x 600mm x 3.5mm

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist.
The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2333 (Rock Stone), Dimensions: 300mm x 600mm x 3.5mm

2334 (Rock Stone), Dimensions: 300mm x 600mm x 3.5mm

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist.
The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2551 (Travertine), Dimensions: 300mm x 600mm x 3.5mm

2552 (Travertine), Dimensions: 300mm x 600mm x 3.5mm

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist.
The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2553 (Travertine), Dimensions: 300mm x 600mm x 3.5mm

2554 (Travertine), Dimensions: 300mm x 600mm x 3.5mm

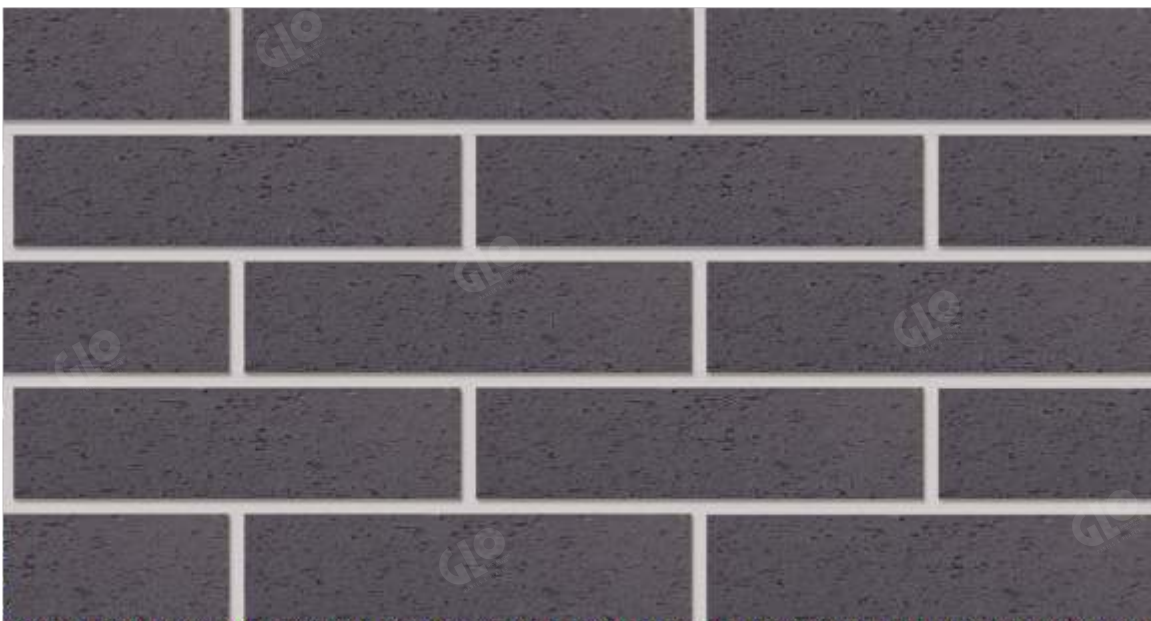

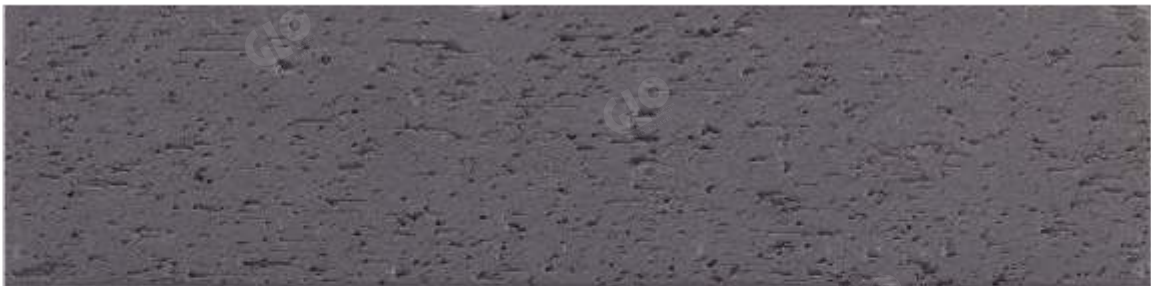

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist.
The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2661 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

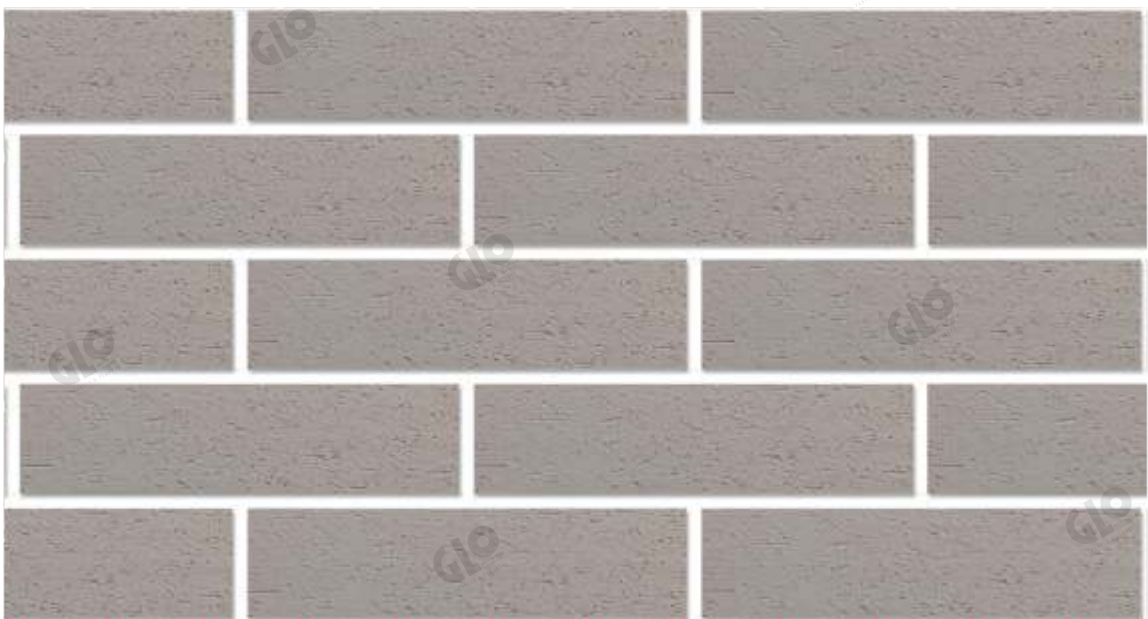

2662 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

2663 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

2664 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

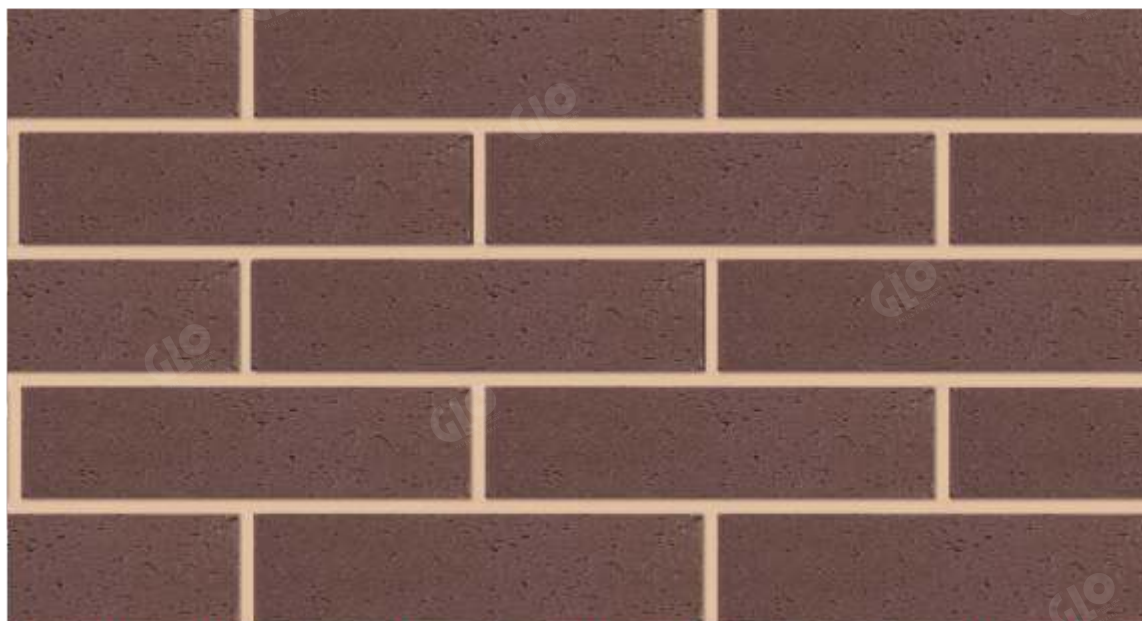

2665 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

Colour variation & gradation is a natural feature & part of our manufacturing process hence lot to lot colour variation is bound to exist.
The actual product quantity will be different depending on the size of application area and the grouting (gap) of 8mm/10mm between each tile.

2771 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

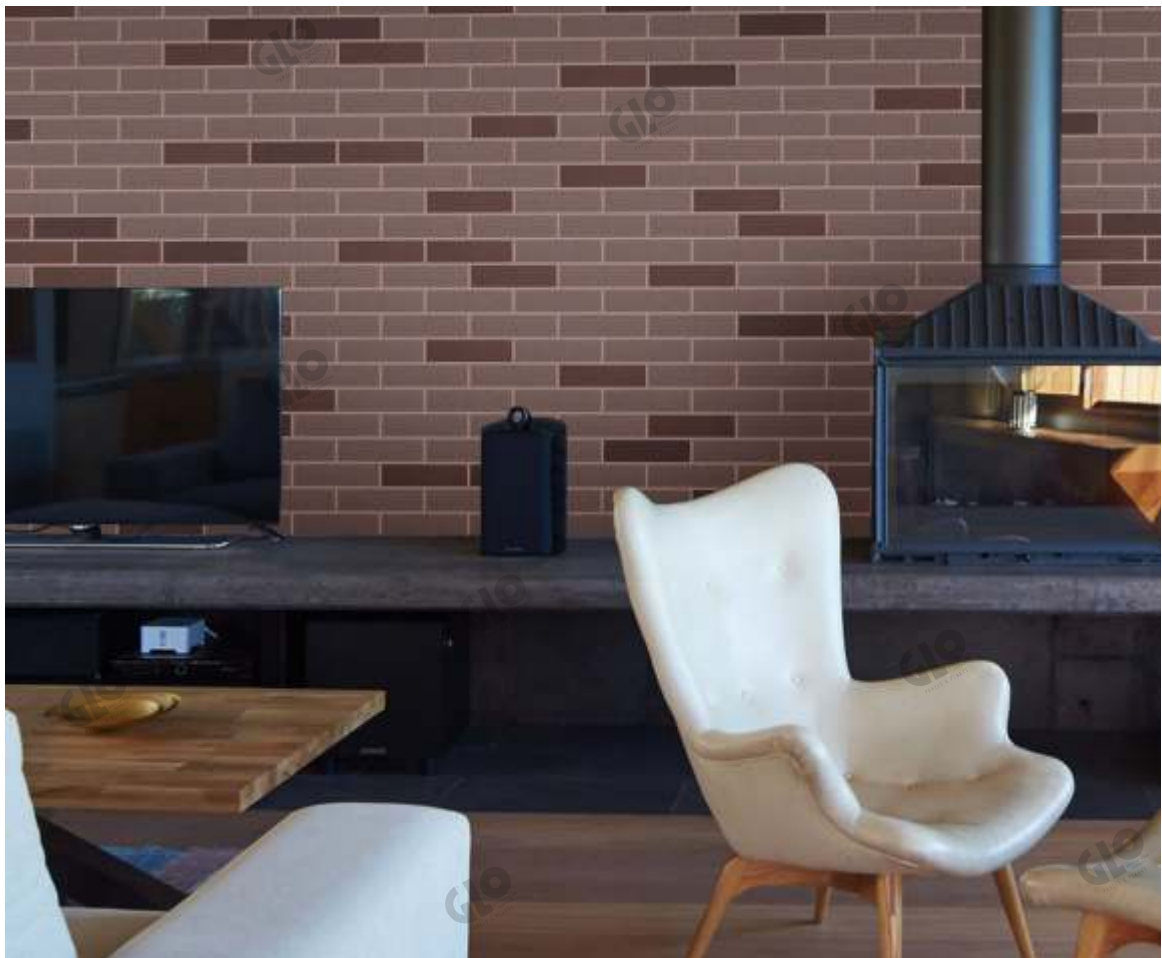

2772 (Bricks), Dimensions: 60mm x 240mm x 2.5mm

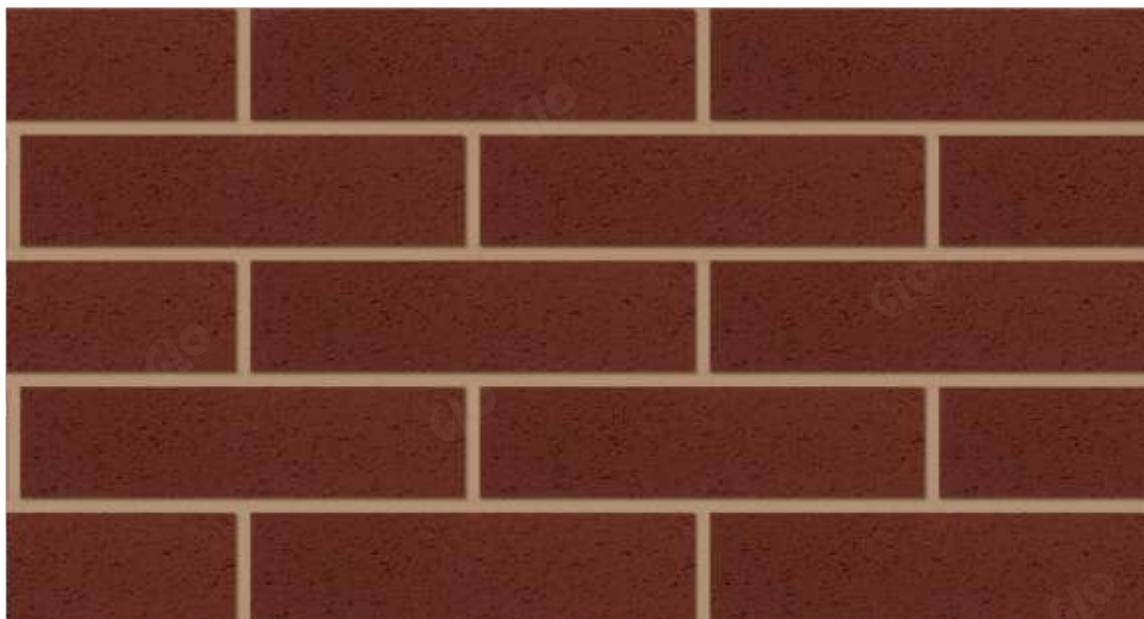

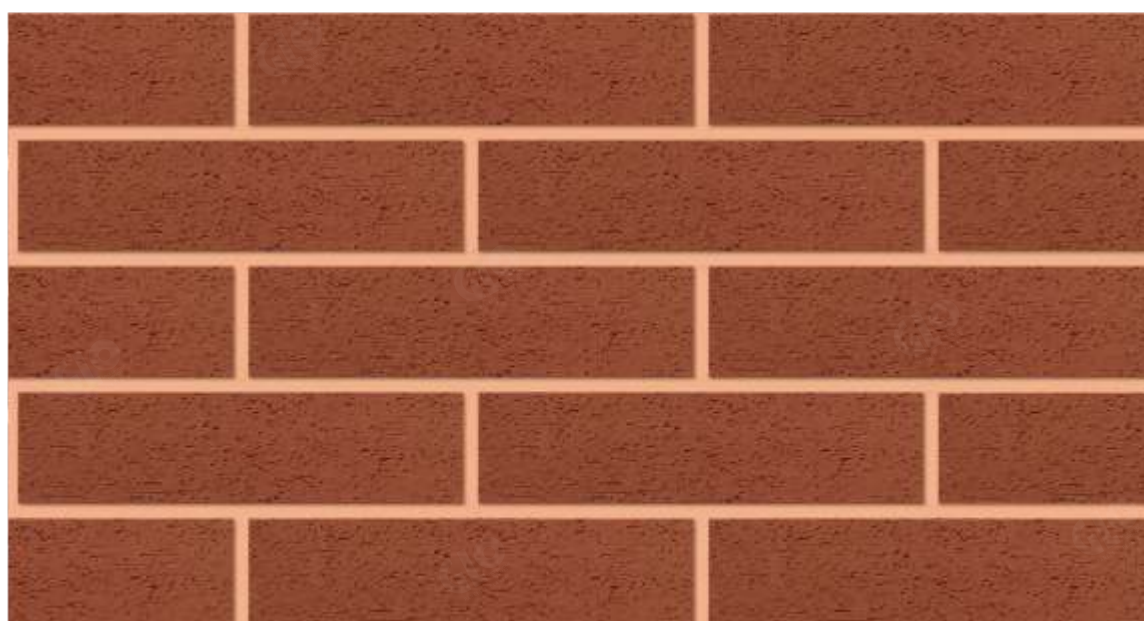

2773 (Bricks), Dimensions: 60mm x 240mm x 2.5mm
